

The following table is the recorded CPU run time (for making single move) vs depth, when the board is empty.

All measurements are performed on omega

Number	Depth	Time(seconds)
1	1	0.0036780834198
2	2	0.0232579708099
3	3	0.112879037857
4	4	0.164099931717
5	5	1.24070382118
6	6	2.03267216682
7	7	10.2950050831
8	8	18.5885398388
9	9	122.671205044
